with the wrath and scorn of Biblical seers. Here, too, is the poet of love, apostrophizing beauty, youth and nature, particularly the wonderful vistas of Lebanon, with its cedar groves and mountains, in poetry of passionate tenderness. Introducing us to the most famous poems of the Lebanese poet Kahlil Gibran, Osho takes the reader into a mystical world, addressing essential issues in everybody's life. The famous verse that gives the title to this book is about "love"—but not the ordinary love we know from novels and movies. Speak to us of Love gives a taste of a contemporary mystic at work, trying to disrupt our dreams, illusions, and the state of unconsciousness that prevents us from enjoying life to the fullest. This is about and for the millions of people in the world who have killed their love with their own hands, and who are now miserable. They never wanted to kill it, there was no intention to kill their love, but in their unconsciousness they started possessing. Husbands possess their wives, wives possess their husbands, and parents possess their children. Teachers are trying in every possible way to possess their students. Politicians are trying to possess countries. Religions are trying to possess millions of people and control every aspect their lives. This book shows that life can only thrive in freedom. Love never allows anyone to possess it, because love is our very soul. For Osho, the basis of all our neuroses or psychoses is simple: our souls are not nourished. Love, the basic nourishment, is missing. Osho comprehensively trounces the so-called religious and philosophical approaches to life. All that is of worth is to be found, not in the extraordinary, but in the ordinary; not in fantastical ideas of the "other world" beyond death, but in this very world that we find ourselves in here and now. In short, this book shows that making a simple yet utterly basic shift in our lives will awaken the silence in our beings and bring joy into our every moment. In search of the 'truth', Gibran could find no single religious tradition which completely revealed its intention. Thus he wove together

insights from Eastern Christianity, Islam, Buddhism, American Transcendentalism, and the folklore of his native Lebanon to create his own universal 'Anthem of Humanity' -- which is this superb selection of twenty-four meditations, essays, and prose poems. Readers are invited to explore the history of Paganism and the founders of the modern Craft movement. The Pagan god is found in the cycles of the season, and "Pagan Ways" shows how to get in touch with nature spirits, what celebrations are included in the Pagan calendar, the tools used for magick and worship, how to erect an altar, and how to become a Priest or Priestess.
